Development Agency responsible for “Smarter Environmental Information”!

It should be easy to ...

... collect environmental data!

... get understandable information on how the environment is doing and how the environmental work is going!

... develop new solutions and new environmental information!

The Challenges are in the Implementation!

- Digital First!
- The Goals are in Place
- Openess and Innovation as Drivers (e.g. Hackathon)
- Several Actors Joined Together
 - Part in the Council for Digitalization of the Public Sector Sweden
 - e-Sam
 - Geodata Council

Let's take the "Next steps"!
